TVAC40970

Micro SD card 4 GB

The Micro SD is an extremely compact memory card (SD 2.0) with a 4 GB storage capacity and a minimum transfer rate of 4 MB/s (speed class 4). Thus, the tiny fingernail size card is the optimum storage medium for the powerful mini camcorder (TVVR10000); setting new benchmarks for concealed carry or extremely mobile mini monitoring solutions by ABUS Security Center.
